# 8 COMMENTS / ADDITIONAL INFORMATION

8.1 Do you have any comments or additional information?

Yes Yes/No

Question Number	Line Number	Comments
All	All	This information is provided in the belief that it is accurate within generally accepted industry standards and is provided for the information of qualified personnel. The information is provided for the product as is it supplied. Prospective users are highly recommended to conduct their own tests and studies to ensure this product is suitable for the intended purpose and applications.
3.3-3.4		The allergen information provided in Section 3.3 and 3.4 is accurate and true to the best of Davis's knowledge. Any allergen free claims made by Davis for this product will be represented under Section 5.2 or under 7.3 with a test result for the specific allergen. If specific claims are to be made on this product and Davis does not make the claim themselves, it is the prospective user's responsibility to conduct due diligence to ensure this claim can be supported.
3.2.3		BRC is a GFSI recognised scheme which involves annual verification. For the most recent audit date, please refer to the suppliers food safety certificate

7.2	Agri Products Only	This is an agricultural product that has undergone a minimal degree of processing. Foreign matter controls are included in the processing however it is not always possible to guarantee 100% removal of foreign matter in some product types. Vegetative and inherent foreign matter tolerances may be given under section 7.2. Where metal detection and X-Ray has been used, limits of the manufacturer's detector will be given to reflect the limitation of detection.
3.2.3		Request latest certification for audit information.

### 8.2 ADDITIONAL MANUFACTURING SITE INFORMATION (if required)

When nominating product is supplied from more than one manufacturing site, the details provided must be applicable to product coming from any of the sites. For example, if particular allergens occur at only one site then the information provided in the form should identify that the allergens are present even though batches of product made at other sites may be allergen free.
