### 6.5 TRACEABILITY

Please provide any general comments about the traceability coding used on the product:

Traceability of products are controlled within Fonterra's electronic stock system, with all products being identifiable via factory registration number; manufacture date, batch and unit/pallet number.

Please specify the following where applicable:

## 8.2 ADDITIONAL MANUFACTURING SITE INFORMATION (if required)

When nominating product is supplied from more than one manufacturing site, the details provided must be applicable to product coming from any of the sites. For example, if particular allergens occur at only one site then the information provided in the form should identify that the allergens are present even though batches of product made at other sites may be allergen free.
