

# PRODUCT SPECIFICATION SHEET FOR THE BRAND FIRST WATER HEALTH

Firstwater Health is 100% natural water, bottled in a purpose built facility directly above the water source. The product is naturally occurring and lays 100metres below the land surface. Underground, the water is filtered through sandstone and above ground is filtered through a paper filtering system only to remove sand particles if any.

## Typical Analysis Water – Milligrams per Litre

Chloride	17.0
Sodium	9.1
Bicarbonate	5.0
Magnesium	2.6
Potassium	1.6
Calcium	0.77
Iron	0.1
Zinc	0.1
Fluoride*	<0.1
pH at source	7.0

\* Chemical analysis procedures prevent the detection of fluoride under <0.1 milligrams per litre

## PACKAGING SPECIFICATIONS
